

Location Intelligence

empowers insurance professionals to understand and manage risks across the organization – before, during, and after an event.

Benefits of the Solutions

- Increased efficiency and profitability
- Reduced fraud cases
- Faster decision making and more responsive claims support process.
- Reduced costs

Availability

The Apps can be downloaded from the Google and IOS Playstore

The Garage Finder App

Insurers know that to be successful they must offer the products and services customers need at the right price. Insurance has a strong geographic component, from managing the addresses of policyholders to the location of risk to the logistics of handling claims. This is where GIS can benefit them the most.

The Challenge

In the event of an accident many policyholders get towed to far away and unauthorized garages.

Solution: The Garage Finder

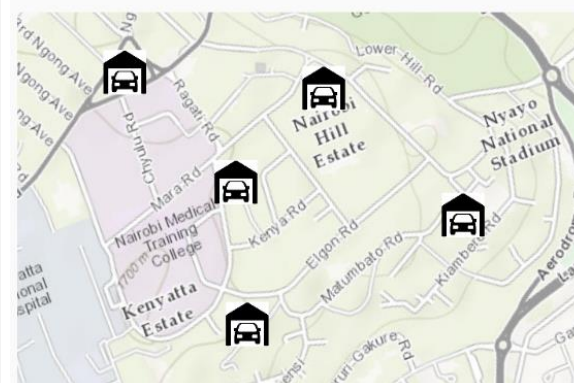

This is an application that allows a policy holder to locate a garage nearest to the scene of the accident and identify which of the preferred services they require after which they can easily select, call and access the services.

How it works

1. Policy holder **Downloads** app from playstore
2. Policy holder user selects closest authorized garage from a dialog box

Garage Finder

Click Here to Locate Nearest Garage

Available Garages : Nearest to Farthest
